

# REMARKS

Claims 1, 2, 4-6, and 8-12 are presently pending. Claims 3, 7, 9, 10, and 13-23 are cancelled without prejudice.

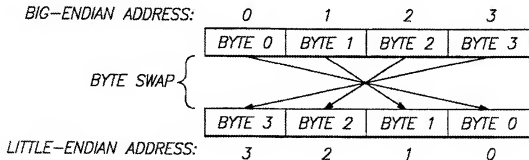

Claims 1-7 and 9-12 were rejected under 35 U.S.C. § 102(b) as anticipated by Baden. Claim 1 is amended to recite, among other limitations:

swapping a third pixel from the portion of the picture and a fourth pixel from the portion of the picture if the indicator indicates that the byte order is different or opposite from the predetermined order.

Although Baden describes the foregoing in Figure 1:

Note that where the "a data word packing a first pixel, followed immediately by a second pixel, followed

immediately by a third pixel, followed immediately by a fourth pixel", the first and second pixels are not swapped with each other, and the third and fourth pixels are not swapped with each other.

Accordingly, Assignee respectfully requests withdrawal of the rejection to claim 1 and its dependents.

Claim 5 is amended to recite, among other limitations, "a decompression engine for decompressing compressed video data and writing decompressed video data to a frame buffer with a byte order, said decompressed video data comprising a picture". It is respectfully submitted that Hagan does not disclose a video decompression. Accordingly, Assignee respectfully requests withdrawal of the rejection to claim 5 and its dependents.

Claim 9 is amended to recite, among other limitations, "providing the portion of the picture with the particular pixel order and providing the portion of the picture with the predetermined pixel order".

Hagan does not provide the portion of the picture in both orders. Accordingly, Assignee respectfully requests withdrawal of the rejection to claim 9 and dependent claims 10-12.
